|-------------|---------|--|---|--|---|-------------------|
| 28-February | Yes     |  | "This policy encourages our community to establish awards or prizes for OWASP competitions and scholarships and travel assistance for OWASP events."        | This sentence uses the word "and" too many times with no punctuation. I'm thinking that it should actually be "...for OWASP competitions, and scholarships or travel assistance for OWASP events." | Accept  |                   |
| 28-February | Yes     |  | "Awards recognize high impact members, chapters, initiatives, projects, or as prizes for OWASP competitions."   | This sentence is just awkward, I think it's clear that a prize is a prize.... I'd suggest "Awards recognize high impact members, chapters, initiatives, or projects."                              | Accept  |                   |
| 28-February | Yes     |  | "Scholarships fulfill our mission to underserved and disadvantaged communities and individuals, improving equity and access for those who need assistance." | Seems to limit the way scholarships can be used. While helping those underserved or disadvantaged is a good goal, who is to say what the definition of those groups or circumstances are?          | Accept  |                   |
| 28-February | Yes     | Headings should use title caps.  |   |  | Accept  |                   |
| 28-February | Yes     |  | " (hereon: organizers)"   | I believe this should be " (herein: organizers)"   | Accept  |                   |
| 28-February | Yes     |  | "Organizers are responsible for ensuring a competition with a prize has appropriate permits or legal within their jurisdiction."                            | "...permits or legal requirements within their jurisdiction."  | Accept  | Per Harold's note |
| 28-February | Yes     |  | "Travel Assistance<br>Scholarships assisting under-served or under-represented"   | Pick hyphenated or not, be consistent throughout. (I'd suggest without)  | Accept  |                   |
| 28-February | Yes     |  | " "OWASP Lifetime Achievement Award," "OWASP Ottawa CTF Champion," "OWASP AppSec Manchester Scholarship," and so on."                                       | Commas should be outside the quotes.   | Accept  |                   |
| 28-February | Yes     | Funding must be fully funded is kind of awkward.   | " Funding for awards, scholarships, and travel assistance should be fully funded, including by:"  |  | Accept  |                   |
| 4-March     | Yes     | Awards and Scholarships Guidance link does not work  |   |  | Accept  |                   |
| 4-March     | Yes     | I believe scholarships should have a maximum amount or times awarded to an individual. In the past, the same individuals received scholarships each time they were available.  |   |  | Reject  |                   |
| 4-March     | Yes     | Under Audit Authority  | "validating those selection criteria"   | "validating that the selection criteria"   | Accept  |                   |
| 4-March     | Yes     | Throughout the document - Committee/committee - decide if it should be initial cap or not so that it is the same throughout  |   |  | Accept  |                   |
| 4-March     | Yes     | Should we add a cut off date for when an individual is allowed to submit for reimbursement of the scholarship, etc. For example: submit travel expenses within 60 days of the event  |   |  | Accept  |                   |
| 4-March     | Yes     | The next is an accounting issue: will there be a contract with the sponsor for a scholarship. For example: If a sponsor agrees to \$10k for the event and all of the \$10k is not used, we should have something that states the remainder is donated to the Foundation. |   |  | Accept  |                   |
