# What is Zone-h.org

## **Disclaimer:**

Zone-h neither: condones, promotes, and/or participates in attacks that are recorded within our database. It is however in a unique position that such attacks are freely reported to our organization.

Zone-h catalogues several useful pieces of information for each intrusion including the timestamp of the attack, software version of the webserver, the operating system, motivation of the attacker, and reported technical details of the intrusion methodology.

# Defacement

**Defacement** is an attack against webpage, replacing the main (usually) page with attackers page.

## Reasons:

**Political (hacktivism)** – Mohammed cartoons, G8, war in Iran, conflict between Israel and Palestine, etc

**Best defacer**
