Open Web Application Security Project (OWASP) is an open-source project made up of corporations, public section organizations and individuals from around the world. Providing free, vendor-neutral, practical and cost-effective application security guidelines, OWASP is the de facto standard-setting body for web application security.

Building on its successes of the past two years, OWASP’s China chapter is again hosting a flagship OWASP outreach event. Global AppSec Asia 2011 offers expo, training and conferences and includes many opportunities to converse with government, industry and education leaders. New in 2011, OWASP is offering exclusive Global AppSec Sponsorships to provide additional benefits and streamline the planning process for our most supportive organizations.

OWASP events attract a worldwide audience interested in finding out what’s next in web application security. As an OWASP conference sponsor, your brand will be included as an answer. Sponsors will gain exclusive access to companies in Asia through a limited number of Expo floor slots, providing a focused setting for potential customers.

Attendees will walk through the Expo floor for breakfast, lunch and coffee breaks. They will have direct access to sponsors’ booths and representatives. The conference is expected to draw over 800 international attendees; all with budgets dedicated to web application security initiatives. Financial, healthcare, government, telcos, media, pharmaceuticals and many other verticals will be represented.
Why support OWASP?

OWASP is the de facto standard-setting body for web application security. For example, the National Institute of Standards and Technology (NIST) and Payment Card Industry Security Standards Council (PCI SSC) both recommend OWASP’s best practices for risk management. For a list of top industry and government citations, check https://www.owasp.org/index.php?title=Industry:Citations&setlang=en.

Who Attends an OWASP Global AppSec Asia?

The increasing volume of enterprise data and expansion of data access creates security challenges to businesses across all industries. The AppSec Asia audience includes top security professionals, advanced IT professionals, CTOs, CISOs, CSOs, information security faculty and students from colleges and universities, members of management and business communities who are looking to connect with application security and technology experts. 100% of the attendees are involved in information and application security. Over 500 people attended the conference last year, representing organizations including: Huawei, Alibaba.com, Baidu, China Telecom, China Mobile, China Merchants Bank, Shenzhen Stock Exchange, Ping An Insurance Group, Chinese Ministry of Industry and Information Technology, Chinese Ministry of Commerce, Forrester Research, Inc., Chinese Academy of Sciences.

What can you achieve at OWASP Global AppSec Asia?

- **Develop New Sales Leads** - Conference attendees are an extremely focused group of people with strong business interests in security and related topics.
- **Enter China and Asia Markets** - Exhibiting is one of the most cost and time effective ways of entering the China and Asia markets. It is a great opportunity to research and network while gaining exposure to a new, highly qualified client database.
- **Recruit New Employees** - Meet and network with top information and application security professionals.
- **Launch New Products and Services** - Draw attention to your brand by using Global AppSec Asia as a launch pad for new developments, products, and services.
- **Build Customer Loyalty** - Meet face to face with clients and prospects to develop your presence in the marketplace.
- **Position Company Brand** - Being seen at an OWASP event enhances your marketplace visibility and positions your organization as an information security industry leader.
- **Business Development Opportunities** - Attendees set time aside to attend, learn, and do business. Talks, receptions, breaks, and social media provide ample networking opportunities.
There are three ways to participate at the event. You company can become a conference sponsor, or an activity sponsor, or an exhibitor.
