

## What We Did This Past Week

Worked to get Arnaud (arnaud.labenne@dotsafe.fr) started contributing development cycles.

Worked to get jah (jah@jahboite.co.uk) started contributing development cycles.

Pulled together an early alpha release (backfilling documentation and other items as needed) and posted the distribution to Google Code:

**esapi4php-core-1.0a1.zip** -- An Alpha release of the OWASP ESAPI for PHP Core library. It contains all security control interfaces and a subset of corresponding interconnected security control reference implementations.

**esapi4php-adapter-1.0a2.zip** -- An Alpha release of the OWASP ESAPI for PHP Adapter reference implementation module. It works using an extended factory pattern approach.

Week of Nov. 20, 2009

## Action Items

**Action:** Team, keep up the great work. Please welcome our two newest team members!

## Current Assignments

Validator	<a href="#">Johannes Ullrich</a> <a href="#">Laura Bell</a>
Codec—Base64	<a href="#">Andrew van der Stock</a>
Codec—CSS	<a href="#">Linden Darling</a>
Codec—JavaScript	<a href="#">Mike Boberski</a>
Codec—LDAP	TBD
Codec—MySQL	<a href="#">Andrew van der Stock</a>
Codec—Oracle	<a href="#">Andrew van der Stock</a>
Codec—VBScript	<a href="#">Arnaud Labenne</a>
Encryptor	<a href="#">Andrew van der Stock</a>
Encrypted properties	<a href="#">Andrew van der Stock</a>
HTTP utilities	<a href="#">Laura Bell</a>

## Where To Go From Here

OWASP is the premier site for Web application security. The OWASP site hosts many projects, forums, blogs, presentations, tools, and papers. Additionally, OWASP hosts two major Web application security conferences per year, and has over 80 local chapters. The OWASP web site can be found [here](#).
