

[Ezendu Ariwa](#)

1. If elected, what would be your top three priorities for your first year on the board?

My First THREE **top priorities during** the first year in the board are as follows:

I will do my best with the board team to put OWASP on the following platforms

Internationalisation of the OWASP

Establish high level Business and industrial collaborations

Develop OWASP Centre for Excellence for the promotion of OWASP key objectives for positive Government Technology advocate and ICT Leadership

2.What is your style for dealing with complex situations that may impact many people or where other decision makers hold differing viewpoints?

The use of evidence based strategy and negotiation skills with in-depth research models that justifies total benefits and return-on-investment for the benefit of OWASP strategy will be used to achieve excellence for the board and OWASP

3.Describe your experience leading organizations. Were they non-profits or community based? Please explain both your role and the nature of your involvement.

My roles on voluntary capacity as the Chair for the IEEE Consumer Electronics Chapter, United Kingdom & Republic of Ireland (UKRI), Chair for the IEEE Broadcast Technology Chapter, UKRI and Chair of the Technology Engineering Council, UKRI. My role in these chapters involve organising the team, recruiting members and working with students to set up student branches in the universities and advising industries and businesses for sponsorship for viable projects. I have also tried to set up chapters and workshops in India, Nigeria, Bahrain, Afghanistan and few other commonwealth countries. I have also worked very hard to organise international conferences, symposia, workshop, showcases and special sessions as means of promoting the organisations internationally through new dimension marketing strategy for publicity and international recognition. These will add values to the key indicators and expectations of OWASP

4.Describe your most successful contribution to the OWASP community (Project, Chapter, Conference, or other).

My most successful contributions to OWASP community are the proposed strategies mentioned above, and working with the team on setting up New Chapters in the UK, Asia and Africa. Furthermore, I hope to organise sponsored international conferences, workshops and co-technical sponsored events in collaboration with business and industrial sectors and government. In addition, I hope to work on international sponsored projects

by OWASP, United Nation, European Union and USAid that focuses on the key objectives of OWASP for promotion of the main missions as well as mapping these with the government and industrial professional standards.
