## About OWASP

The Open Web Application Security Project (OWASP) is a worldwide free and open community focused on improved security in software applications. Our mission is to make application security "visible", so That Organizations Can Make Informed Decisions About application security risks. Everyone is free to Participate in OWASP and all of the materials available under a free and open software license. The OWASP Foundation is a non-profit 501 c 3 organization That Ensures the availability and continuous support for our work.

## OWASP projects

Some of the projects developed by OWASP include:

-OWASP Top Ten: An investigation of the 10 most common vulnerabilities in Web applications as well as suggestions for countering them.

-Free Access Documents: OWASP Developers Guide, OWASP Testing Guide, Code Review Guide..

-OWASP Live CD: Is a virtual environment with security tools for the use of safety tests on Web applications.

-WebGoat: Is a learning environment of security in Web applications in J2EE with around 50 lessons based on most common vulnerabilities

## Sponsorships and donations

Donations are tax deductible:

-**Individual donations**: 50 USD a year.

-**Global sponsor (corporate)**: 5,000 USD a year.
