

## Letter of Intent

---

*Hacking-Lab is offering free use of OWASP TOP 10 trainings to OWASP.org*

### Introduction

This Letter of Intent does describe and formalize the conditions of contributions of Hacking-Lab OWASP TOP 10 trainings to OWASP.

#### Compass Security / Hacking-Lab

Hacking-Lab is an IT security portal and deals with hacking and defense strategies. We believe in "**Learning by Doing**", but this is a hard and time consuming task. Why not sharing a high-quality and tested security lab to the community? This is what Hacking-Lab is built for.

Hacking-Lab it a training portal developed by Compass Security AG, offers the possibilities to create hands-on training events. Such training events consist of educational material reference, challenges, solution management, ranking and solutions including solution videos.

Represented by Ivan Buetler, Managing Director at Compass Security

#### OWASP

The Open Web Application Security Project (OWASP) is a 501c3 not-for-profit worldwide charitable organization focused on improving the security of application software. Our mission is to make application security visible, so that people and organizations can make informed decisions about true application security risks. Everyone is free to participate in OWASP and all of our materials are available under a free and open software license.

Represented by Martin Knobloch, Chair of the Global Education Committee

### Intention

#### Hacking-Lab

Hacking-Lab will facilitate and provide free OWASP TOP 10 trainings to OWASP. The OWASP TOP 10 training is further referred as Hacking-Lab services.

#### OWASP Academy-Portal

The OWASP Academy Portal Project will use the Hacking-Lab services for creation of events as described (see Hacking-Lab).

## Acknowledgment

Hacking-Lab does offer OWASP the free usage of Hacking-Lab services. Hacking-Lab makes the already and future developed OWASP TOP 10 material available for OWASP for free. The software and service will remain property of Hacking-Lab.

OWASP acknowledges this contribution by adding the Hacking-Lab logo on the OWASP sponsor listing and on the OWASP Academy-Portal project and the OWASP University Challenge Project.

Hacking-Lab acknowledges this partnership by adding the OWASP logo on the Hacking-Lab partnership listing and on the Hacking-Lab event pages.

Hacking-Lab does not request fees in any kind for the usage of the Hacking-Lab services provided to OWASP. Hacking-Lab does not sale or offer paid services with the events and materials created by the OWASP organization.

OWASP does not request fees in any kind for providing Hacking-Lab based services to its community.

### Hacking-Lab acknowledges the following:

#### Free Usage of Services

- The Hacking-Lab OWASP TOP 10 services and content created or uploaded by OWASP are free to use for OWASP
- Hacking-Lab does not commercially market content developed and provided by OWASP

#### Ownership of content

- All events and content created or uploaded by OWASP remains OWASP ownership
- All events and content created or uploaded by OWASP remains open source under the [Creative Commons Attribution Share Alike 3.0 license](#).
- All events and content created or uploaded by Hacking-Lab remains Hacking-Lab ownership

**Comment [MDF1]:** Please check the licensing.

#### Ownership of service

- The service, hard and software of the Hacking-Lab, maintain property of Compass Security

#### OWASP responsibility

- All events and trainings run by OWASP using the Hacking-Lab infrastructure are managed by OWASP members and representatives
- OWASP will identify at least 2 members to become a Hacking-Lab teacher. These teachers will have access to the solution management application, including step-by-step and video resources. These teachers need to sign a non disclosure agreement with Hacking-Lab.
- OWASP or OWASP individuals are not allowed to use the free services in non-OWASP related situations. It is not allowed to use the free service in commercial trainings run by OWASP or their members in commercial web security trainings.

## Project Plan

We agree on the following schedule

- End of July, 2011: Adoption and signing of this LOI
- September 22-23, 2011 at the OWAP AppSec USA in Minneapolis: To explain the Hacking-Lab the OWASP leaders to train and officially handed over
- November 17<sup>th</sup>, 2011 at the 4.German OWASP Day 2011: The official start of the project and the first workshop together with the OWASP Academy offer.
