

OWASP

IRELAND CONFERENCE 2010

Introduction

OWASP Sponsorship Options, Trinity College, Dublin 2010

Open Web Application Security Project (OWASP) is an open-source application security project made up of corporations, educational organizations, and individuals from around the world. Providing free, vendor-neutral, practical, cost-effective application security guidelines, the organization has fast become the de-facto standards body for Web Application Security.

The OWASP Ireland 2010 Conference (September 17th 2010, TCD, Dublin) is a premier gathering for Information Security leaders. Executives from Fortune 500 firms along with technical thought leaders, security architects and lead developers, gather to share cutting-edge ideas, initiatives and technology advancements. It is the only annual OWASP application security event in the UK and Ireland.

OWASP events attract a worldwide audience interested in “what’s next?” -- as an OWASP Conference sponsor; your brand will be included as an answer.

International Experts share their Insights

OWASP Ireland draws over 150 Global Attendees

OWASP is providing sponsors **exclusive access** to its audience in **Dublin, Ireland** through a limited number of Expo floor slots, providing a focused setting for potential customers.

Attendees will be pushed through the Expo floor for breakfast, lunch and coffee breaks giving them direct access to sponsors’ booths and technology. The conference is expected to draw over 150 international attendees; all with budgets dedicated to web application security initiatives. Financial Services, Media, Pharmaceuticals, Government, Healthcare, Technology, and many other verticals will be represented.

All proceeds from sponsorship support the conference and the mission of the OWASP Foundation (501c3 Not-For-Profit), driving funding for research grants, tools and documents, local chapters, and more.

All sponsorship opportunities feature significant discounts to **OWASP members**, allowing you year-round access the web application security’s top thinkers as well as use of OWASP materials in product and service delivery.
