

OWASP

The Open Web Application Security Project

www.owasp.org

OWASP is a community of developers, researchers, architects, managers, and suits trying to change the software market and stop vulnerabilities.

Community

- * 110+ Local Chapters
- * Worldwide Conferences
- * Mailing Lists
- * AppSec Job Board

New Releases

- * Enterprise Security API
- * CSRFTester
- * CSRFGuard
- * Anti-Samy

Upcoming Conferences

- * Krakow, Poland
May 11-14
- * Washington, DC
November 2009

Register Now!

If the following interest you:

- ❖ Static Analysis
- ❖ Intranet Attacks
- ❖ Identity Theft
- ❖ XSS Worms
- ❖ Banking Applications
- ❖ AJAX & RIA
- ❖ Mass SQL Injection
- ❖ Advanced Defensive Techniques
- ❖ Cross-Client Attacks
- ❖ Browser Vulnerabilities
- ❖ Advanced Testing Tools
- ❖ And Lots More!

Then you need to join up with the best researchers from across the globe – We have 110 chapters in countries around the world!
