Jonathan Marcil	26-Aug	Yes	With Social Media being on the table, I'd like to raise that in my opinion OWASP is currently affected negatively by the small amount of people having publishing access. As far as I know, I'm the only non-staff on LinkedIn for example. The Foundation should look into giving access rights to well-behaved volunteers, perhaps in committees such as the outreach one. This will help video content promotion, but will also help many chapters and projects to reach more people at no costs to the Foundation.			Accepted
Simon Logan	6-Aug	Yes	I reviewed your social media policy, as requested. I don't see anything I disagree with. There's a typo in guidelines point 1: "ethics and principals" should be "ethics and principles".			Accepted
